

## **Mobile Giving at Secure Give**

**Here are the basic instructions:**

**The mobile app works for iphones, androids, and blackberrys**

**1. The member searches their app store for the SecureGive app and downloads. Input your password.**

**2. Launch the SecureGive app** and have it either search by location or search by your church name.

**3. Set your church as your home organization.** From then on, it will automatically open to your church's mobile site

**4. Select Give**

**5. Login using your SecureGive phone number and password or click "Get Started" if it is your first time.** This will prompt you to create a profile.

**6. After you have logged in or created a profile, follow the directions to give. It's that simple.**
